On 3 May, five railroad cars, each loaded with two fuel containers, were observed at the Ganzlin railroad station. The containers were consigned to  Retzow airfield.

Comment: Retzow airfield measures about 2,800 by 750 meters and has a grass surface. Although there is no concrete runway, the field seems suitable for MIG-15's. It probably is to be prepared for exercises by the fighter division stationed at Rechlin-Laers.
